TORs of the Technical Working Group:

1. Develop strong leadership for rehabilitation at national and provincial levels aiming for policy making process and operationalizing of the policies.
2. Strengthen rehabilitation planning and implementation at national and provincial levels.
3. Improve integration of rehabilitation into the health system as part of Universal Health coverage and strengthen intersectoral links to effectively and efficiently meet population needs.
4. Build comprehensive rehabilitation service delivery models to progressively achieve equitable access to quality services, including assistive products, for all the population, including those in rural and remote areas.
5. Collaborate to enhance financing for rehabilitation through appropriate mechanisms both in public and private sectors.
6. Enhance health information systems through including rehabilitation indicators into current Health Information systems.
7. Promote collaboration at provincial, national and international level among stakeholders and partners on rehabilitative activities and facilitate participatory decision making to leverage expertise and best practices and adapting them to the Pakistani context
8. Suggest strategic and programmatic reforms and interventions related to rehabilitation and assistive technology to the UHC National Advisory Committee for endorsement.

DR. BASEER KHAN ACHAKZAI,
Director General (Health).
