NEWSPAPER EMPLOYEES
CONSTITUTED UNDER
THE NEWSPAPER
EMPLOYEES (CONDITIONS
OF SERVICE) ACT, 1973
ALONGWITH SCHEDULES
DECISION OF THE 8TH WAGE BOARD FOR NEWSPAPER EMPLOYEES CONSTITUTED UNDER THE NEWSPAPER EMPLOYEES (CONDITIONS OF SERVICE) ACT, 1973 ALONGWITH SCHEDULES

INTRODUCTORY

Briefly put, the facts, forming factual canvass of these proceedings, are that the last (7th) Award under the Newspaper Employees (Conditions of Service) Act, 1973 (hereinafter, to be referred as “the Act”) was announced on 7th October, 2001 by Justice (R) Raja Afrasiab Khan, as Chairman, 7th Wage Board for Newspaper Employees of Pakistan which was published in the Gazette of Pakistan on 25 October, 2001 but it could not be implemented due to prolonged litigation initiated by All Pakistan Newspaper Society (hereinafter to be referred as “APNS”). Finally, the petition filed by APNS was dismissed by the Hon’ble Supreme Court vide judgment, dated 19.11.2011, reported as All Pakistan Newspaper Society v. Federation of Pakistan and others, PLD 2012 S.C 1.

2. After culmination of litigation whereby the validity of 7th Wage Board Award was challenged, 8th Wage Board was constituted successively under the chairmanship of Justice (R) Syed Sakhi Hussain Bukhari, and Justice (R) Raza Khan, vide notifications dated 06.09.2013 and 06.06.2014, respectively but unfortunately, said Boards could not hold even a single meeting of the Board. Thereafter, 8th Wage Board was constituted under chairmanship of Mr. Shahid Mehmood Khokhar, Advocate vide notification dated 18.04.2018 but subsequently, his appointment was declared as illegal and unlawful by the Hon’ble Supreme Court on the ground of lack of qualifying age,
therefore, the said Board stood dissolved. Ultimately, *vide* Notification No.4(4)/2018-P-II dated 07.11.2018 issued by Federal Government of Pakistan in terms of Sub-section 2 & 3 of Section 9 of the Act, the undersigned was appointed as Chairman, 8th Wage Board for Newspaper Employees for a period of 180 days. Subsequently, through Notification No. 4(5)/2004-P-II, dated 26.11.2018, twelve members of the Board were nominated. The composition of aforementioned Board is stated as under:—

3. According to the afore-referred notifications, the term of the office of the Chairman and the Members was to start from the date of convening of 1st meeting of the 8th Wage Board.

**BACKGROUND**

**i.** On 28th September, 1954, Pakistan Press Commission was setup by Government of Pakistan. One of the terms of reference of the Commission was “to examine and make recommendations on the rates of pay and working conditions of the journalists”. The Commission was headed by Justice (R) Khurshid Zaman as its Chairman. Further, eleven persons were nominated as members of the said Commission. It was reconstituted on 5th September, 1958 and Justice (R) H.B Tayyabi, an Ex-Chief Judge of the Chief Court of Sindh, was nominated as its Chairman and five gentlemen as its members.

**ii.** On 25th March, 1959, the Commission, after holding thorough deliberations, submitted its report, *inter alia*, recommending for enactment of a codified law to regulate the conditions of service of working journalists with specific reference to constitution of a Wage Board.
iii. In the meanwhile, Civilian Government was replaced with Martial Law regime. As a result, the day to day affairs of the country were being run on the basis of Ordinances, promulgated by the President and the Governors and the orders made by Chief Martial Law Administrator and the President.

iv. In recognition to the Commission’s recommendations, the Central Government enacted the Working Journalists (Condition of Service) Ordinance, XVI of 1960 (hereinafter to be called as the “Ordinance”) which was followed by the requisite Rules published on 24th May, 1960. Some of the recommendations made by the aforesaid Commission were incorporated in the Ordinance. To the extent of fixation of rates of wages in respect of working journalists, the Central Government was authorized to constitute a Wage Board, consisting of equal number of persons to represent employers in relation to newspaper establishments and working journalists. In pursuance of said provision, 1st Wage Board was constituted on 30th May, 1960. Justice (R) Sajjad Ahmad Jan, the then Judge of the High Court of West Pakistan, was appointed as its Chairman. Four members of said Board with equal representation from both employers and working journalists were also nominated.

v. After holding regular meetings of the Board and recording views of 124 persons, the Board was able to reach a unanimous decision on 31st December, 1960. It was published in Extra Ordinary Gazette of Pakistan dated 31st January, 1961. The salient feature of the said decision was
that life span of said decision was determined as five years with an observation that after expiry of said period the government may appoint fresh authority to revisit the remuneration of the journalists. Also, the Board gave wages structure for the journalists for the first time. It also laid down wage structure of dividing the grade into special grade, senior grade, junior grade-1 and junior grade-2 comprising different classes of the journalists. It would be also relevant to mention here that Rawalpindi, Lahore, Karachi and Dacca were declared as Metropolitan Centers while five important commercial centers of Peshawar, Lyallpur (now Faisalabad), Multan, Hyderabad and Chitagong were categorized as regional ‘A’ centers. The Board divided the newspapers in four categories, viz, Metropolitan ‘A’, Metropolitan ‘B’, Regional ‘A’ and Regional ‘B’. Weekly periodicals were divided into two categories. News agencies were divided into three categories namely category ‘A’, category ‘B’ and category ‘C’.

vi. The 1st Wage Board while making its decision drew comparison to the wages paid to Director of Press Information Department, the information officers in the Government Service, Education Department, news organization of Radio Pakistan, pay scale in civil servants of Pakistan and foreign and local commercial establishments.

vii. At this stage it would be worth mentioning that after creation of Pakistan, newspaper industry flourished and numerous papers grew up in the country like mushroom growth. In metropolitan and regional cities, the newspapers in local languages are also being published. With the passage of time,
electronic media started to function in Pakistan. Lately, the social media has also progressed. Unfortunately, trend of reading books has decreased to a large extent. Despite introduction and progress of electronic and social media, the business of print media is still flourishing. Though due to the competition with electronic media, social media and internet, the business of print media has been on decline to some extent but it cannot be said that the owners are suffering losses to the extent that they cannot pay reasonable salaries for the newspaper employees.

viii. At the time of 1st Wage Board Award, the law only regulated the Conditions of Service related to the working journalists but not to non-journalistic employees.

ix. As mentioned above the decision of 1st Wage Board was subject to review and revision after five years from the date of its enforcement by an authority that might be setup by the central government in that behalf. Thereafter, a report was given by the Fact Finding Committees, formed by the Governments of East and West Pakistan. The committee recommended that Award would be revised at the end of the calendar year 1965. With regard to the implementation of the Award, the committee identified that the implementation of the Award was either totally nil or extremely unsatisfactory inasmuch as except a few prosperous/affluent newspapers none else followed the same. Soon after, the journalists started demanding for the revision of their wages and in order to force the government to do so, they decided in March, 1969 to go on strike. However, Martial Law was once
again proclaimed on 25th of March, 1969. By Martial Law Regulation 18, the strikes and lockouts were prohibited. So the journalists had to give up their proposed strike.

x. On 25th April, 1969, West Pakistan Government constituted the 2nd Wage Board with the composition of eight members with Justice (R) Sajjad Ahmad Jan, as its Chairman who, later on, resigned and was replaced by Justice (R) A.S Faruqui, as the Chairman on 17th October, 1969. After giving Interim Relief in December, 1969, the Chairman resigned on 1st day of February, 1970 and was succeeded by Justice (R) S.M Shafi who was appointed as Chairman of 2nd Wage Board on 5th March, 1971. This was the time when Pakistan was passing through a most difficult time. India had already started its nefarious Military activities to separate/disintegrate East Pakistan from West Pakistan and was threatening West Pakistan with an attack. It actually attacked West Pakistan on the 3rd of December, 1971.

xi. At the relevant time, Working Journalists Wage Board was a provincial subject, the actual control remained with the Central Government. After separation of East Pakistan from us West Pakistan was dissolved and instead of one province four news provinces were constituted.

xii. The working journalists as well as the newspaper proprietors were anxious that the affairs of the working journalists should be taken over by the Central Government so that the condition of their service should be uniform in all the four provinces. In this backdrop, the aforesaid Ordinance was replaced with the Newspaper Employees (Conditions of
Service) Act (No. LVII) of 1973. Under Section 24(1) of the said Act the Ordinance was repealed but under the deeming clause provided Under Section 24(2) the rules framed under the Ordinance are still in force. Under this Act, it is the duty of Federal Government to constitute a Wage Board for fixation of rates of wages in respect of not only journalists working in the newspaper industry but also all other employees in the industry. The definition of the expression “Newspaper Employee” vide clause (d) of Section 2 of the Act, is reproduced as under:

“newspaper employee” means any person employed to do any work in, or in relation to, any newspaper establishment and includes—

(i) a whole time journalist, including an editor, leader writer, news editor, feature writer, reporter, correspondent, copy tester, cartoonist, news photographer, calligraphist and proof-reader; and

(ii) a whole time non-journalist, including a manager, clerk, stenotypist, printing engineer, linotype, operator, composer, type-seller, photo studio attendant, printing worker, an accountant and an office peon”.

_xiii._ Under the said Act, a Wage Board was constituted on 11.09.1973 and Justice (R) S.M Shafi was again appointed as Chairman of said Board.

_xiv._ During the proceedings of 2<sup>nd</sup> Wage Board, the employers and employees were unable to come to any agreement, therefore,
the Chairman had to formulate Award himself on 8th June, 1974.

xv. Third Wage Board was constituted vide Notification dated 24th January, 1979 with Justice (R) Muhammad Munir Faruqui, as its Chairman alongwith four members representing the employers and an equal number representing the newspaper employees. The Board was reconstituted on 6th June, 1979 and it announced interim relief on 5th August, 1979. The Board failed to give Award within statutory period, therefore, the Board was constituted afresh with the same personnel on 3rd December, 1979. The decision/Award was given by said Board on 25th May, 1980 which was published in the Gazette of Pakistan, Extra Ordinary, dated 28th June, 1980 and made effective from 15th April, 1980.

xvi. The 4th Wage Board was constituted on 4th October, 1984 with Justice (R) Fazal-e-Mehmood as its Chairman with twelve members out of them six were representing the newspaper employees and the other six representing the employers. The Board could not finalize the Award within statutory period, therefore, Federal Government reconstituted the same Board on 2nd April, 1985. The Board gave final decision on 28th September, 1985 and through schedule-I attached therewith the newspaper employees were classified in 8 Grades.

xvii. The 5th Wage Board was constituted on 20th July, 1989 vide Notification No. SRO(1)/89. It was reconstituted on 20th December, 1989 with composition of Justice (R) Agha Ali
Hyder, as its Chairman with 14 members; seven representing the newspaper employees and the other seven representing the employers. The Board finalized the report and gave its decision on 18th December, 1990. On the point of fitment, decision of said Board was made in paragraph No. 77. In clause-ii of said paragraph, it was observed as under:-

"(ii) Any Employee who reaches the maximum stage of his pay scale applicable to the grade, after completion of one year’s satisfactory service shall automatically move over to the next higher grade, fixing his pay at such stage as falls next above his existing pay in the lower grade."

xviii. And in clause (iii, iv & v), it was decided as under:-

"(iii) The pay of an employee promoted at the discretion of his Employer to fill up a vacancy in the higher grade shall be fixed at such stage of the higher pay scale as falls next above the pay last drawn by him in the lower grade.

(iv) Annual increment shall be allowed on the 1st day of July every year to such employees, as have rendered, till that date, six months or more service at a particular stage of a pay scale, Employees who have not rendered at least six month’s service till that date, may get their next increment on the 1st day of July of the succeeding year."
(v) If any employee considers that the scheme of new pay is not advantageous to him, he shall have the option to retain his title to draw his pay and increment in the existing pay scales.

ix. While dealing with point of fringe benefits, the said Board in addition to basic pay allowed the following benefits to the employees:-

i. General Transport Allowance
ii. A Night Transport Allowance
iii. Local Travelling Allowance
iv. Outfit Allowance
v. Washing Allowance
vi. Charge Allowance
vii. Wages for Piece Work etc
viii. Hill Allowance
ix. House Rent Allowance
x. Car Allowance to Editor plus Petrol Allowance and Pension @ 42.5% of last drawn basic salary.

xx. The 6th Wage Board was constituted on 18th August, 1994, subsequently, it was reconstituted on 23rd October, 1994 with formation of Justice (R) Zia Mehmood Mirza, Judge Supreme of Pakistan as he then was, its Chairman with eighteen members; nine representing the newspaper employees and the other nine representing the employers. The Board announced the Award on 13th March, 1996 and it was published in the Gazette of Pakistan on 14th March, 1996.

xxi. The 7th Wage Board was constituted on 19th June, 2000 comprising Justice (R) Raja Afrasiab Khan, Former Judge of Supreme Court, as its Chairman
with ten members out of them five representing the newspaper employees and the other five representing the employers. It granted Interim Relief U/s 16(1) of the Newspaper Employees (Conditions of Service) Act, 1973 in the following terms:-

(i) For all newspapers in category Metropolitan ‘A’:-
(a) Grade Special & above ........ Rs.2000 Per month
(b) Grade I to IV ....................... Rs.1600 Per month
(c) Grade V to VIII ..................... Rs.1100 Per month

(ii) All newspapers in category/Metropolitan ‘B’ shall pay at the rate of 50 percent of that fixed in respect of category Metropolitan ‘A’ above.

(iii) All newspapers in category Regional shall pay at the rate of 35 percent of that fixed category Metropolitan ‘A’ above.

(iv) All news agencies in category ‘A’ shall pay at the same rate as allowed in respect of newspapers in category Metropolitan ‘A’ above.

(v) All news agencies in category ‘B’ shall pay at the rate of 50 percent of news agencies in category ‘A’.

It is clarified that:-

(a) This decision of interim increase in wages shall take effect from 1st November, 2000.

(b) The rates of wages fixed hereby are on ad-hoc basis.

(c) The interim increase in rates of wages according to this decision would be subject to adjustment by the final decision of the Board.

(e) The award of the 6th Wage Board except to the extent referred to above shall remain in force till final decision of this Board under section 11 (2) of Act (No.LVIII) 1973.

xxii. It gave its final decision on 7th October, 2001 whereby 50% increase in the cost of living was treated as edifice for the increase in wages of the workers. According to the said decision, the other benefits were also to be increased on said formula.

xxiii. As stated above, the said Award was challenged by APNS before Superior Courts of the country. The petition filed by APNS was ultimately dismissed by Hon’ble Supreme Court of Pakistan vide judgment dated 19.11.2011. During the pendency of said prolonged litigation, the 7th Wage Board Award remained inoperative. As per decision of the 1st Wage Board, the 8th Wage Board had to be constituted after five years of passing of 7th Wage Board Award but due to pendency of aforesaid litigation before Hon’ble Superior Courts including Supreme Court of Pakistan the 8th Wage Board was constituted on 06.09.2013. Though the 8th Wage Board was constituted thrice but could not make material progress. Ultimately, constitution of present 8th Wage Board, was completed on 26th November, 2018 with the nomination of members of the Board. The Board was reconstituted vide Notification No.4(4)/2018-P-II, dated 8th February, 2019 whereby earlier Notification No.4(5)2004-P-II, dated 26th
November, 2018 was partially modified after deleting names of late Mr. Shafi-ud-Din Ashraf and Mr. Ijaz-ul-Haq (“Express Group”). Former had died even before holding first meeting of the Board whereas name of Mr. Ijaz-ul-Haq (“Express Group”) was deleted on the protest of employers’ members. Consequently, the following Board was reconstituted:-

**CHAIRMAN.**

Justice Hasnat Ahmad Khan
Former Judge Lahore High Court

**MEMBERS.**

i. Sahibzada Zulfiqar, Member Executive Council of Pakistan Federal Union of Journalists (PFUJ), Baluchistan, Quetta

ii. Mr. Bakhtzada Yousafzai, Daily Aaeen, Peshawar, KPK

iii. Mr. Nasir Chishti, President, Jang Workers Union, Rawalpindi, Islamabad

iv. Mr. Shoaib-ud-Din, Deputy Chief Reporter, Nawa-e-Waqt, Lahore

v. Mr. Hameed Haroon, Dawn Group

vi. Ms. Rameez Nizami, Nawa-e-Waqt Group

vii. Mr. Asif Zuberi, Business Recorder

viii. Mr. Mujeeb-ur-Rehman Shami, Daily Pakistan

ix. Mr. Sarmad Ali, Jang Group

x. Muhammad Nawaz Raza, PFUJ (Dastoor Group)
xxiv. The initial period fixed by the Government of Pakistan for announcement of Award was to expire in the week commencing 24th June, 2019, the Board in its meeting held on 8th May, 2019 at Karachi unanimously resolved that Federal Government be requested for extension of time by way of reconstitution of same Board for completion of the process of Final Award. In light of said decision, the undersigned wrote a letter dated 22nd May, 2019 to the Federal Government for doing the needful. Resultantly, the Federal Government instead of reconstituting the Board extended its tenure of further 120 days vide Notification No. 4(4)/2018-P-II dated 21st August, 2019.

**PROCEEDINGS CONDUCTED BY THE PRESENT BOARD**

4. The first meeting of the Board was held at Islamabad on 27th December, 2018. The members representing the employers did not opt to attend the said meeting. It would be relevant to mention here that even before holding first meeting of the Board, Mr. Shafi-ud-Din Ashraf, one of the learned members representing the employees, unfortunately passed away. Consequently, in the light of decision taken by the Board, vide letter dated 2nd January, 2019 Government was asked to nominate fresh member.

5. In the first Meeting, the employees’ members were allowed to submit charter of their demands in terms of Section 10 of the Act. However, the employers’ members stayed away from attending the aforesaid meeting.
6. The second meeting of the Board was held at Lahore on 10.01.2019 but once again the employers’ members did not attend the meeting on the pretext conveyed by Mr. Sarmad Ali, one of the learned members representing the employers, that a letter had been written to the Secretary Information, Government of Pakistan raising certain objections/issues. In the said meeting, the members representing the employees submitted memorandum on interim relief along with supporting documents. Learned members representing employees pressed hard for announcement of interim relief immediately but the request was not acceded to. On the request of the learned members of the Board, next meeting was scheduled to be held after a fortnight instead of next week holding it on weekly basis.

7. Third meeting of the Board was held on 24.01.2019 at Islamabad but once again none of the members representing the employers attended the meeting. As a matter of fact, they refused to attend the meeting on the ground of their boycott of the Board mainly on the ground of inclusion of name of Mr. Ijaz-ul-Haq (Express Group) as one of the members of the Board. Consequently, in view of rule, 5(2) of Working Journalists (Wage Board) Rules, 1960, it was resolved in the meeting that matter of failure of attendance of the employers’ members be brought to the notice of the Government for necessary action. Further, the employees’ members prayed for time to supplement their claim of interim relief through further documents. In the meanwhile, the employers’ members were provided another opportunity to defend the prayer for interim relief by submitting their reply to the memorandum of interim relief.
8. Fourth meeting was scheduled to be held at Islamabad on 18.02.2019 but Mr. Sarmad Ali, one of the learned members of the Board, through a Whatsapp message dated 14th February, 2019 requested for rescheduling of the meeting on 26th February, 2019 or thereafter. Since local holiday was declared in Islamabad on 18.02.2019, the meeting of the Board was rescheduled to be held at Lahore on 26.02.2019. Upon the assurance of the undersigned that the proceedings of the Board shall be conducted according to the settled norms the members representing the employers, who earlier kept themselves away, participated in the meeting under discussion. Thereafter, the formal meeting started on said date. During the formal meeting, a letter dated 26.02.1989 written and signed by Mr. Hameed Haroon, one of the learned members as President of APNS containing certain proposals for holding affective meetings of the Board was placed on record. At the very outset of said meeting, the Chairman welcomed participation of the members representing the employers in the meeting of the Board. The meeting went well in a cordial atmosphere.

9. Copies of the memorandum on interim relief were delivered to the employers’ members respectively for their written reply. In order to reach a consensus on the matter of interim relief, a four member sub-committee was formed and tasked to do the needful.

10. Further, during the proceedings of the said meeting Mr. Sarmad Ali disclosed about the letter dated 28th December, 2018 addressed by him to Secretary Ministry of Information and Broadcasting raising certain issues/concerns including the manner of
nomination of members representing the employers as well as communication dated 7th February, 2019 addressed by Mr. Sarmad Ali to Secretary of the Board complaining failure of Government to respond letter dated 28th December, 2018.

11. Fifth Meeting of the Board was held at Peshawar on 14th March, 2019. In said meeting an additional memo of interim relief was placed on record by Mr. Nasir Chishti, one of learned members representing the newspaper employees whereupon the other side was asked to submit reply to the memo of interim relief before or on 25th March, 2019. The needful was done on 25th March, 2019.

12. Sixth meeting of the Board was held on 2nd April, 2019 at Islamabad. In said meeting consensus on major points relating to interim relief was developed between the parties.

13. Seventh meeting of the Board was held on 10th April, 2019 at Islamabad. In said meeting order of interim relief was passed in favour of Newspaper Employees (hereinafter to be referred as “the employees”) and copies of said order alongwith the unanimous agreement signed by both the parties were sent to the relevant quarters for due publication in the official gazette.

**EMPLOYEES’ MEMORANDUM OF DEMANDS**

14. At this stage, I would like to refer the memorandum on interim relief presented on behalf of the employees before the Board. In the said memo, it was claimed by the employees’ members that the last Award i.e. 7th Wage Board was notified in the year 2001 and became effective from 1st July, 2000 but the employees had been getting salaries as determined by the said Wage Board in the year
2001, almost 18 years before the constitution of the present Board. It was further claimed in the said memo that it was necessary to immediately redress the miseries being faced by the workers at the hands of a galloping rate of inflation which had spiked the cost of living beyond the means of newspaper workers. For seeking interim relief, certain points were raised in the said memo which are reproduced hereunder:

"1. The inflation rate during the preceding period has gone up by 364.93%. (A copy of inflation rate is attached herewith as Annexure ‘A’).

2. The Bullion has also gone up by 951.11% (A copy of the Bullion rates is attached as Annexure ‘B’).

3. The prices of food items over the last 17 years have increased by 327% (Commodity Comparative Rates are hereby annexed as Annexure ‘C’).

4. Rent of houses during this period has gone up manifold. There is no official applicable figure for house rents, but some relevant facts need to be taken into account. In the first place, wage earners belonging to newspaper industry live in the urban centre where house rents have escalated. Then, there is the practice of paying at least one year’s rent in advance, which erodes the already meagre cash resources. In fact, a wage earner loses one month salary by way of interest on mobilizing one year advance. Not only the house rent has escalated a lot, but it is also increased by 10% each year due to escalating prices of their houses. Even though, under the prevailing law, a house owner is authorized to increase the rent by 10% every three years. Thus, escalation in this respect will continue in future also.

5. The cost of education during the period has gone up by about 450%. Admission fee of Play Group has been increased at least 10 times. In return, the education which these schools impart is far from satisfactory. Besides, there are not enough Government run educational institutions to provide administration to all the children with the result
that the parents have to get their children admitted to private institutions. These institutions charge much higher fees and raise at least 10% annually. Therefore, most of the people belonging to the newspaper industry prefer to send their children to private schools in which fees have gone up by about 450% in the last 18 years. Besides, the cost of books and exercise books, even pen and pencils, have gone up by about 300% in this period.

6. During the same period, the government has increased the power and gas tariffs multiple times.

7. Due to acute shortage of electricity, the people of Pakistan generally face 8-12 hours of load shedding which has compelled them to buy and maintain generators and UPS which is an added expenditure. Newspaper employees are no exception on this count.

8. Finally, during the period under review, transport charges have also gone up massively and the vanishing public transport facilities in terms of bus and mini bus routes, commuters are forced to opt for ride-hailing service”.

15. After giving the aforementioned detail of inflation rate etc., the employees’ members demanded/proposed the rate of interim relief as under:-

   Editor Grade...................................................... Rs.30,000/-

   Special Grade..................................................... Rs.25,000/-

   Grade I to IV....................................................... Rs.22,000/-

   Grade V to VIII.................................................... Rs.20,000/-

16. Rate of interim relief in respect of category Metropolitan B, category Regional A and category Regional B was demanded at the rate of 50%, 35% and 30% respectively of that fixed in respect of category Metropolitan A. Alongwith the said memo, supporting
documents along with proposed structure of salaries was also attached.

17. Subsequently, the additional memo of relief, dated 26th February, 2019, submitted by the members representing the employees along with supporting documents was filed to strengthen their claim. In the meanwhile, the undersigned sought report from Finance Division about data relating to increase in cost of living and inflation rate from October, 2001 to till 30.01.2019 (the date of letter written by the undersigned). In response whereof, Deputy Finance Advisor (I&B) submitted his report dated 12.02.2018 to the following effect:-

“So for as civil servants are concerned, the Government announces relief to cover cost of living from time to time in shape of Ad-hoc Relief Allowances. Ad-hoc Relief Allowances allowed from 2001 to 2017 have since been merged in basic pay scales, 2017. Based on this information, the Federal Government has enhanced the basic pay of the civil servants by 382% (approximately) from 2001 to 2017. In addition Ad-hoc Relief Allowance, 2017 and 2018 have also been allowed at the rate of 10% each."

(Emphasis provided)

18. Similarly, in response to letter addressed to Pakistan Bureau of Statistics, a report dated 11th February, 2019 submitted by said Bureau was received by the undersigned. Concurrent analysis of the said report showed that cost of living had increased by more than 370% from October 2001 to February, 2019.
19. It would be relevant to point out here that on 09.12.2019 the learned members representing the employees submitted another memorandum seeking 325% increase in the wages of the newspaper employees.

**REPLY OF EMPLOYERS TO THE EMPLOYEES’ MEMORANDUM**

20. In the reply submitted by Mr. Sarmad Ali, Secretary General, APNS to memo of interim relief, it was *inter alia* averred that the members representing the employers are not supposed to sit in the Wage Board as adversaries to the representatives of Newspaper Employees rather they sit as a part of Wage Board, therefore, their first and foremost duty is to facilitate decision of the matter before them in a fair and objective manner; that the memorandum should not have been submitted by the members of the Wage Board representing Newspaper Employees rather it should have been submitted by the Employees [e.g] through their unions; that the Wage Board should send notices to All Newspaper Establishments before giving interim or Final Award; that the manner in which the Act of 1973 has been interpreted and is being implemented is unconstitutional inasmuch as the newspaper industry remain the only private industry in Pakistan in which the wages of every category of employees is fixed. On merits, it was submitted that in the given circumstances there is no need to give Interim Relief inasmuch as the establishment of Daily “Dawn” has already increased the salaries of the employees to the tune of 182% whereas, the establishment of the “Jang Group” has increased the salaries of its employees to the tune
of 249%; likewise, “Business Recorder” has increased the salaries to the tune of 356%; that quantum of increase sought by newspaper employees, through an Interim Relief, is unjustified; that according to the PBS, the C.P.I has increased by 262% from 2000 to 2018, therefore, the demand of the employees of Interim Relief is unjustified; that Dawn’s capacity to pay wages in March, 2019 is less than as compared to July, 2001; that newspaper establishments do not have capacity in the present environment to bear the type of increase in wages which the newspaper employees are demanding. However, in paragraph No.36 of the reply, it was admitted that the employees are also facing difficulties due to rising inflation in Pakistan but according to APNS the solution to the said situation does not lie in a dramatic escalation in wages as it would lead to closure of more newspapers and further layoffs and those persons who are gainfully employed would be unemployed.

20. In paragraph No.35 (i) of said reply it was stated as under:-

"Given that newspaper employees are asking for 199% increase in wages (as notified in the 7th Wage Board Award) in the final 8th Wage Board Award and newspaper establishments have already given a 182% to 356% increase in Wages and emoluments up to 1 July, 2018, there is no requirement or justification for an Interim Award at this stage".

21. Vide an unnumbered Annex the employers’ members/APNS proposed interim relief (with 40.5% increase over 7th Wage Interim Relief as under:-
22. After a lengthy discussion spanning five (5) hours, in Islamabad on April 10, 2019, both the parties ultimately arrived at a consensus on the issue of interim relief through a deed duly signed by them and recorded separately, according to which they agreed to Interim Relief in favour of newspaper employees. 23. It appears that announcement of interim relief brought about a sigh of relief amongst the newspaper employees.

24. After announcement of interim relief/decision, it was resolved by the Board to decide the agenda for conducting proceedings for passing Final Decision/Award. Consequently, it was decided that the next two back to back meetings of the Board would be held in Quetta and Karachi on 19th and 20th April, 2019 respectively. Mr. Sarmad Ali, one of the learned members, agreed to provide list of owners of non-APNS Newspaper Establishments, so that notices may also be issued to them. It was further decided that both the parties will produce their respective witnesses belonging to the said stations and nearby regions. It was also resolved that in order to save time, instead of recording examination-in-chief of the witnesses intended to be produced by each party, they will produce affidavits of said witnesses, besides ensuring their attendance for cross examination by the other side. Moreover, it was resolved that the sub-committee of the Board will unanimously propose the name of the Wage Advisor for the requisite advice.

25. Due to some unavoidable circumstances, eighth (8th) meeting of the Board scheduled to be held in Quetta, was convened at Karachi on 19th April, 2019. In response to the notices issued to non-APNS owners of the Newspapers, only two persons namely Mr. Riaz Ahmad Arain and Mr. Danish Mehmood Siddique owners of “Weekly Moqadam News, Nawab Shah” and “Daily Sindh Bulletin Hyderabad”, respectively, appeared before the Board and made their statements without oath. Mr. Riaz Arain lamented the non-issuance of any advertisement to his weekly for the last 10 years that, according to
him, caused lot of financial problems to the said weekly. He added that he had employed 11 workers and 14 correspondents for publication of said weekly; that circulation of said weekly was not more than 2000 and that his weekly was on central media list. He complained that despite payment of fees to APNS, the latter has not given membership to his weekly. However, he admitted that CPNE has given temporary membership to his weekly. Dr. Danish Mehmood Siddique, owner of Daily “Sindh Bulletin Hyderabad” stated that newspaper owners were facing financial difficulties. He complained that despite deposit of requisite fees his paper was not being given any share in the newspaper advertisements. Thereafter, statements of five witnesses produced by members representing the employees were recorded.

26. Ninth meeting of the Board was held on 20th April, 2019, wherein statements of 18 witnesses, produced by members representing the employees, were recorded. Since the evidence intended to be produced at Karachi could not be completed, therefore, it was decided that two more consecutive meetings would be held at Karachi on 9th and 10th of May, 2019 respectively. However, later on, the meetings were rescheduled to be held on 8th and 9th of May, 2019.

27. In the tenth meeting held on 8th of May, 2019, despite issuance of notices to non-APNS newspapers through different modes none of them opted to appear before the Board.

28. Note: Dr. Khattak failed to turn up on said date, however, later on, he posted some suggestions to the Board vide application/letter dated 27th May, 2019, image whereof is pasted as under:-

- Besides daily “Jang”, “Jang Group” has been publishing “Akhbar-e-Jahan”, “The News Karachi” and “Mag”.

He denied the suggestion that there is a decrease of advertisements revenue of the newspapers to the tune of 23% in comparison to year 2018. He explained that there is decrease of advertisements due to the decrease of number of pages of the newspapers. In answer to another question, he stated that fit man formula should be devised so that the employees may be awarded promotions in due course. He demanded that there should be increase in salaries of employees on the pattern of increase of salaries of government servants and that government advertisements should only be awarded to those newspapers which implement W.B Award. In answer to another question, he explained that due to long drawn litigation initiated by newspaper employers, employees could not reap benefit of 7th W.B Award. He denied the suggestion that Dawn’s advertisement revenue of Sunday edition has decreased 15% to 18% from 60% of said revenue. 85. EW-24 Faiza Ilyas, Senior Reporter, Daily “Dawn” Karachi tendered her affidavit-in-evidence as EX-EW24/A alongwith several other documents including salary slips. In paragraph No.5 of said
affidavit, it was claimed that on 31st January, 2019, the employer unilaterally announced 40% cut in the salary package of the employees, on the grounds that organization was suffering losses. According to paragraph No. 7 of said affidavit, the gross salary being paid to a handful of employees of "Dawn" organization under 7th W.B Award has been rendered insufficient when compared to the soaring inflation and unbridled hike in the prices of essential commodities over the last two decades. In paragraph No.8, she has deposed that vide Mark-HHH her Ex-gratia/PAP has been reduced from Rs.68,154/- in January, 2019 to Rs.40,791/- in February, 2019.

86. In paragraph No.12 of the said affidavit, she deposed that her basic salary saw a minimal increase in last 12 years and that hiring staff and taking their services for years without an appointment letter is a common practice. She has further added that lack of provision of transport is a major problem that journalists face. According to her, interim relief announced by 8th Wage Board was highly disappointing. In paragraph No.25 of the said affidavit, she prayed for revision of pay scales after taking into consideration the inflation rate, price hike, house rent and cost of living. She produced a list of her monthly household expenses as (Mark-NNN) showing total monthly expenses as Rs.98,088/- whereas, her present salary is Rs.64,415/-. 

87. She was subjected to lengthy cross examination during which she admitted that she was inducted in “The Star” which was closed in 2006. She further admitted that she had signed an agreement whereby the amount already paid under PAP could not
only be adjusted but also withdrawn. On her own, she stated that a journalist receives salary as of right and not as a bounty.

88. "Dawn" produced his duly sworn affidavit-in-evidence as EX-EW25/A, NIC EW25/B, PAP letter Mark-QQQ, Pay Slip Mark-RRR extract of 7th W.B Award Mark-SSS and Pay Slips Mark-TTT, UUU & VVV. In his affidavit, he deposed that—

- Keeping in view almost 400% increase in inflation during last 19 years, there was an urgent need of increase in salaries with identical percentage in order to help workers to maintain a decent living. He has further added that he is sole breadwinner of six-member family and after 40% pay cut in salary, it has become very difficult to maintain a respectable living.
- After having served for almost 19 years, his basic pay is just Rs. 15,070/- which is shamefully low.
- In the year 2000, a journalist of a ‘Metropolitan A’ category was drawing a salary higher than what a BPS-17 Officer was earning at that relevant time.
- In January 2019, PAP has been reduced by 40%.
- Wage Board under NECOSA, 1973, only determines minimum wages for the newspaper employees but the said act does not put any restriction on paying more than that and sky could be the limit and it is evident from 7-digit salaries besides hefty perks being given to managerial position holders and some blue-eyed big names in the journalists community and such is the case in "Dawn".
89. During cross examination, he showed his ignorance about increase of C.P.I. In answer to another question, he stated that despite going through terms and conditions, he joined “Dawn” group considering that serving the “Dawn” group was an honor. However, later on, it was revealed that people who joined that group in fact had been deceived by the said perception. He, however, admitted that quantum of flow of advertisements of “Dawn” group has decreased during last one and a half year.

90. EW-26 Abdul Wahab, Senior Sub-Editor, Daily “Dawn” produced his affidavit-in-evidence as EX-EW26/A, NIC, EX-EW-26/B alongwith other documents as Marks-WWW, XXX, YYY, ZZZ, AAAA to Mark-LLLL. In his affidavit, he deposed that—

- Scales under 7th Wage Board Award were valid for the period 2000-2005 thus, same needed revision. However, due to prolonged litigation, 8th Wage Board was constituted after gap of 19 years; therefore, the employees’ wages remained far below a justifiable level considering the inflation and price hike that had registered a steep rise during said period.
- At the same time, all employers resorted to downsizing/retrenchment understandably to shed their expenditures and ward off any upcoming pay rise.
- Shamefully, their strategy achieved the common target of bringing down the strength of WB-entitled employees to 25-15%.
- The rest of the retained employees were outsourced to contractors to deprive them of W.B Awards etc.
• Employers’ strategy was to shift 75-80% of their employees to outsource companies.

• Balance sheets of almost all newspaper organizations, particularly four major ones, show huge net profits during the period 2000-2017.

• Depreciation of rupees affects both employers and employees equally and that actual value of an employee’s salary has shrunk by 25-30% in the last decade.

• Present slump in the private sector advertising market is a temporary phenomenon but the salary structures/scales being formulated for the 8th W.B Award will be for many years and are not supposed to be revised upwards in near future.

• The witness demanded a reasonable percentage of increase in salary structure for the next five years/until the constitution of next wage board, keeping in view the high inflation rate and other such figures, e.g. price hike, fuel prices, currency devaluation etc., of the last five.

91. In answer to a question during cross examination, the said witness replied that he had not gone through the balance sheets personally but he has knowledge about the said balance sheets from other evidence and resources. He added that the employers themselves increased salaries of the employees during last 18 years to the tune of 200% to 350%-a fact that shows that they (employees) are financially quite stable. He, however, admitted that said increase in the salaries was due to competition in the market.

92. EW-27 Muhammad Mukhtar Khan, Sub-Editor Daily “Dawn” produced his affidavit-in-evidence as EX-EW27/A, NIC, EX-
EW-27/B, PAP Letter Mark-NNNN, Pay Slip Mark-OOOO and Pay Slip Mark-PPPP. In his affidavit, he deposed that—

- He joined the organization at a gross salary of Rs.65,000/- as agreed upon during successive interviews, without any mention of its component-wise breakdown.
- He started work before receiving a contract.
- Upon receiving the documentation, he found his basic salary to be Rs. 6,660/- with numerous allowances adding up to Rs. 12,090/-. 
- Cumulative inflation over the last decade is around 140%, while the figure is even higher since 2001, the year of announcement of last Wage Board Award.
- Current pay scale, including allowances for utilities, rent for accommodations, as well as other factors, is absolutely insufficient to support even subsistence-based living and that it needs immediate revision in accordance with rising inflation rate and costs of living. He was not cross-examined either.

93. Shabbir Ahmed Dawood Gangat, Director Finance “Dawn” Group of Newspapers (The Company), Owners’ Witness (OW-1) produced his affidavit EX-OW-1/A wherein, it has been deposed that—

- Financial year 2018-19 is proving to be a watershed year for Pakistan Media. Print media particularly has been dealt a major financial blow in the current financial year.
- Print media market is abuzz with news of closure of newspaper editions, salary cuts and mass layoffs from a number of newspaper establishments.
• Any increase in salaries of Print Media workers beyond 50 percent shall spell financial disaster for the entire Print Media Industry.

• Dawn’s revenues have declined over revenues of base year 1999-2000.

• On one hand advertisement and circulation revenues have declined about one fourth whereas on the other the management witnessed increase in general inflation level, huge depreciation of Pak rupee against major foreign currencies and the situation further worsened due to colossal increase in the newsprint prices during the calendar year 2018.

94. In paragraph (viii) the witness highlighted following few factors that, according to him, have played a major role in bringing the matters to this stage.

a. The company is currently faced with huge amounts of unpaid advertisement bills totaling hundreds of millions of rupees. As per current position, federal and provincial governments owe about Rs. 254 millions to the company.

b. Advertisement revenues of Dawn have taken a nose dive during current financial year and as compared to corresponding period of previous year the decline has reached to the tune of 25 percent which translates into projected decline of approximately Rs.550/- million on yearly basis

c. In 2004-2005 television had a 34% share in total media advertising spend, print media had a 39% share and digital had no share at all. In 2017-18 the share of television had increased to 46% and digital to 10%. Print media’s share shrunk to 24%.
d. The cumulative effect of devaluation of Rupee along with overheads is that cost of newsprint has gone up 190.4% compared to the year 2000. Moreover, increase in prices of petroleum products and utilities, along with persistent increase in bank rates, is resulting in pushing up the cost of doing business.

e. Like rest of the world, readership base of newspaper is consistently declining in Pakistan.

f. Existing cover price of the paper does not cover its ever-increasing paper and printing cost despite frequent upward revisions in the cover price.

g. The digital arm of the paper is an attempt to keep the newspaper relevant in the time of record technology disruption and rise of social media.

95. In paragraph X it has been stated that the management has already cut about 14 pages per week from regular edition of the paper.

96. In paragraph XIII he deposed that in the past, the company had to close down two of its publications namely Daily “Star” and “Spider” monthly due to continued losses incurred by said publications and that monthly Herald magazine has been sustaining continued losses for past many years and is now scheduled for closure.

97. During his cross examination, the witness has admitted that in his affidavit he has not mentioned about the profit gained by the said group during last 5/6 years. According to him there should be increase in salary of workers, but it should be to the extent of 50%
only. He has further conceded that there is an increase of 187% in the rates of the advertisements. However, he clarified that he did not talk about increase of advertisement rates rather he talked about total volume of advertisements and during this period increase of C.P.I comes to 272.32%. In answer to yet another question he stated that he did not say either that the group is suffering loss in business rather the newspaper actually gained profit during some years. In answer to a question put by me, the witness stated that he did not know about the magnitude of the profit gained during last years; that the magnitude of profit was between one hundred million to three hundred million during said years. In answer to another question he admitted that during this year the newspapers have got concession in custom duty on newsprint. It was also admitted by him that this year 5% concession in custom duty has been given to the newspaper. He further admitted that the price of newspaper was increased and similarly there was increase in the head of advertisements revenue. He went on to admit that management of Dawn “Group” established an electronic channel as well but hastened to add that due to losses a separate company namely “AURORA Broadcasting Company” was established and business of said channel was transferred to it; that the said company has got no concern with the printing but the management is same. He further clarified that the owners are not same but controlling body is same; that previous owner namely Ambar Haroon Saigal was majority shareholder and even now she is majority shareholder but she is not share holder of AURORA Broadcasting Company and that it is not in his knowledge that who are shareholders of the said company. He admitted that Ambar Haroon, who, during first three years, was shareholder of “Dawn” is
owner of “Herald Publication”. He added that after decreasing number of pages of newspaper the management has got some financial relief. It was further admitted by the witness that despite loss to the newspaper the employees are given aid to the extent of Rs. 50,000/- each in the shape of PAP. He admitted that employees are affected by C.P.I increase same as employers are. In answer to another question the witness admitted that arrears under 7th Wage Board Award were paid to the employees after 12 years of the award. In answer to a question put by undersigned the witness could not give the number of regular employees.

98. OW-2 Niloufer Cyrus Patel, Director Circulation and Coordination of “Dawn”- Pakistan Herald Publication (Pvt) Ltd, produced her affidavit EX-OW2/A wherein, she deposed that—

- Despite a 57% increase in population 132 million as per 1998 census to 207 million as per census 2017 the total number of print publications being published in Pakistan fell from 1344 in 1998 to 714 in 2017 showing a drop of 47%. In Sindh the number of print publications reduced by margin of 91% from 1998 to 2017.
- In the period 2000-2019 the Karachi edition saw a decrease of 4% in circulation due to multiple reasons. One such reason mentioned by the witness was inability of the people to pay the bill due to increase of newspaper’s regular price by 92%, Saturday price by 67% and Sunday price 166%, during period of July 2000 to April 2019.

99. The witness produced an untitled and unverified chart which was placed on the record as Mark-AA.
100. During her cross examination, she admitted that since 2000 there has been 92% increase in cover price of newspaper; that in year 2000 ABC certified circulation of newspaper was 87487 whereas presently it is 84093. On her own, she stated that cost of printing of one copy of newspaper is more than its price and the said deficiency is met with the revenue of advertisements.

101. OW-3 Muhammad Khurshid Aizid, Head of Human Recourses Department, M/S “Dawn” Group of the Newspaper Establishment, produced his affidavit EX-OW-3/A wherein after highlighting purpose of creating “Editor’s Grade or Unique Grade” he has stated that the said grade should necessarily be integrated in the 8th Wage Board which shall apparently specify that “A person in an “Editor’s Grade or “Unique Grade” is a newspaper employee and secures the highest position in the Editorial Sector and is thus responsible for the final selection of the content that is to be published in a newspaper.

102. He has further deposed that even a working journalist, working under the supervision of any editor is not entitled to be promoted or moved over to “Editor’s Grade” and that Non-Journalist is also not entitled to Editor Grade.

103. During his cross examination, he stated that total number of employees of Dawn is 316, out of which 194 are regular employees and remaining 122 are contract employees. At his own he added that there is no difference between regular and contract employees as both the categories get benefit of Wage Board Award and that, like regular employees, the contract employees also get all the privileges. He admitted that employees have also been hired through outsourcing
companies but he is not aware of number of such employees. In answer to another question he stated that the management of newspaper does not award Editor Grade to any of the employees. He added that the point regarding Editor Grade was never re-considered in the subsequent Wage Boards, therefore, the decision made in fourth Wage Board Award to the said extent is still holding the field. He admitted that arrears in the light of 7th Wage Board Award were paid to the employees after 12 years and that too in installments.

104. OW-4 Syed Ali Hassan Naqvi, Head of Marketing, Marketing Department, "Dawn" Group of the Newspaper Establishment, produced his affidavit EX-OW4/A and certain documents as Mark-XX to Mark-DDD. According to him—

- The newspaper industry has witnessed a widening shortfall between the budget needed to meet costs and advertising revenue generated over the past few years.
- Advertising revenues of the company have more or less remained stagnant from fiscal year 2016 till 2018.
- Revenue generated by "Dawn" until third quarter of running financial year is 25% less than that compared to first three quarters of 2017-18 fiscal years.
- Situation has grown graver in the current financial year.
- 2004-2005 television had a 34% share of advertising budget and digital had no share at all, however, in 2017-18 the share of television increased to 46% and digital to 10% and consequently, print media's share of advertising shrunk to 24%.
• Despite significant increases in operating costs and inflation, there has been a negligible increase in the rate charged for Pure Government Advertising.

105. During his cross examination, the witness admitted that since 2000 there has been an increase of 75% in the rate of advertisements; that in 2019 rate of private advertisement of Sunday Edition is Rs.5650/- per column cm and for other days it is Rs.4400/- per column cm whereas, in 2000 rate of Sunday Edition was Rs.2200/- per column cm and for other days it was Rs.1500/1800/- per column cm.

106. OW-5 Syed Farhan Hassany, General Manager in Finance Department, “Dawn” Group of the Newspaper Establishment, produced his affidavit and a chart of yearly inflation rates as Mark-EEE. In his affidavit he has stated that—

• As per aforesaid Pakistan Bureau of Statistic the C.P.I has increased 272.32% from 2000-2001 to January, 2019, whereas, the C.P.I index has reached 372.32% after including the base number of 100 and therefore, to consider 372.32% instead of 272.32% as the C.P.I inflation percentage is misleading and incorrect method of interpreting the C.P.I inflation percentage.

107. During his cross examination the witness denied the suggestion that there was a 300% increase in CPI.

108. OW-6 Muhammad Nadeem Tahir, General Manager Finance, “Dawn” Group of the Newspaper Establishment, produced his affidavit EX-OW6/A. In his affidavit he stated that—
• Impact of any increase of Wages whether by a Wage Award or otherwise is not just on the Wages but translates into corresponding and much higher increase in the retirement dues and benefits resulting in creation of huge financial liabilities for the company.

• On the basis of proposed increase of 199%, in the first year of implementation of Wage Board, cost shall increase by 407 million rupees in total and, thereafter, there shall be an incremental charge of Rs.75 million every year, and the company shall buckle down under such huge financial impact which may lead to either scaling down of operation or closure of the company.

109. During his cross examination, the witness has denied the suggestion that if there is increase of 199% increase in the salaries of the employees total additional amount would not touch figure of 75 million rupees. He has denied the suggestion that the amount of 372 million rupees as mentioned in paragraph iv of his affidavit in fact also included the amount of 75 million rupees mentioned in the same paragraph. He stated that he got employment in “Dawn” group 16 years ago and his present monthly salary is Rs.3,60,000/-; he is a qualified charted accountant having experience of 20 years and that he definitely wishes for 5/6% increase in his salary.

110. OW-7 Fouzia Shaheen, Chief Editor of monthly “Dastak” produced her affidavit EX-OW7/A, wherein, she stated that—

• Almost all periodical publications were seriously suffering from severe financial crises for years owing to no advertisement support from government and private sector.
• Similarly there had been a drastic decrease in circulation due to a boom in electronic and social media which resulted in a dramatic increase in overall cost of production.

111. During her cross examination the witness stated that monthly “Dastak” is being published for the last 20 years; that barring herself there is no other staff, however, her family members work with her and that, since she has got no staff, therefore, no question of implementation of Wage Board Award arises. However, she is a member of APNS. In answer to another question she stated that announcement of Wage Board Award will not make any difference for her because she owns no staff for publishing aforesaid monthly. According to the witness, circulation of said monthly falls within range of 5000 to 10000.

112. OW-8 Zia-ud-Din Ahmed Zia, Group Director, HR & Administration (Daily “Jang”, “The News” and “J&S Press”), produced his affidavit EX-OW8/A and certain documents as Mark-QQQQ to Mark-QQQQ/13. According to the contents of his affidavit—

• Print media is facing severe problems throughout the globe and especially in Pakistan.
• Jang printing media group, being the largest print media group in the country, is facing extreme financial pressure.
• Huge amounts have become outstanding and there has been an exorbitant increase in the cost of news print, films, plates and other inputs in addition to printing machinery.
• Rupee Dollar parity was 1= 52.3 in the year 2000 whereas, it has now gone up to 1= 142, which means that Dollar has become 271.5% more expensive.
• There is 172% increase in the cost of news prints.

• Increases in rates of electricity, water tanker and diesel are 771.87%, 833.33% and 783.13% respectively.

• The most unfortunate aspect of move over scheme devised by previous Wage Boards is that even a very junior category employee (e.g. Peons, helpers, ink-man, machine man) can move over, step by step, from grade VIII or VII even to the editorial grade which is meant for editors only. It is one of the biggest anomalies that 7 peons have been moved over to editorial grade in “Jang” Group.

• Due to decrease of profitability of the print media organizations, a number of newspaper organizations were either forced to stop printing their newspaper or to discontinue the printing at different stations.

• Jang Group had to stop four of its publication.

• Due to serious financial crises even the salary payments of Jang group employees have been effected and that it was compelled to lay off a good number of employees as well.

• The witness [in paragraph 13 of his affidavit] criticized move over scheme announced through an earlier Wage Board Award and he deposed that under said scheme even a very junior category employee could move over, step by step, from grade VIII or VII to the editorial grade, which was meant for editors only.

• Federal Government has expanded its pay scales to accommodate 30 increments in each pay scale and that Editor Grade should be restricted only to Editors.
The witness (in paragraph 20 of the affidavit) quoted examples of twelve journalists who, according to the witness, are getting very high salary.

113. During his cross examination, he has stated that in “Jang” group there are 347 regular and 461 contract based employees and apart from them there are people employed through outsourcing companies as well. He denied the suggestion that during last one year more than eight hundred employees of “Jang” group were sacked. According to him only 81 employees, including 79 employees who were hired on contract basis, were shown the door. According to him the reason for sacking them was steep increase of expenditures of “Jang” Group. The witness denied the suggestion that increase in diesel price effects the employees to the extent that affects the newspaper owner. He also denied the suggestion that increase in diesel price effects the employees as well. He admitted that by getting move over the employees are only entitled to increase of salary and if any employee attains Editor Grade in the light of Grade Interval Policy he cannot get salary equivalent to Government Officer of Grade 22. However, according to the witness, due to said formula salary of one of the peons has touched figure of Rs. 62,900/-/- He, however, conceded that said amount included bonuses as well. He further conceded that such like addition of salary occurs after service of 25 years. He denied the suggestion that after induction into service an employee can get first move over at the most after 10 years. In answer to another question he admitted that despite financial difficulties various employees of “Jang” group have been receiving monthly salary more than Rs.100,000/-/-, in fact one of the employees has been receiving more than Rs.300,000/- as salary. He conceded that while a
regular employee receives six bonuses, employees hired on contract do not get even one bonus. In answer to yet another question, he refused to give amount of salary received by him on the ground that such disclosure violates the trust between him and the employer but at the same time he stated that disclosure of amount of salary of 12 other employees in his affidavit is not violation of such trust.

- In December 2018 “Jang” group stopped publishing four newspapers namely Daily News, “Awam”, “Inqalab” and “Waqt”.
- The group has also closed its two stations where editions of daily Jang were planned to be launched.
- A number of newspapers in Pakistan have closed down during the period from 2000 to 2018.
- Share of advertising revenue of print media is continuously going down since the emergence of internet, digital media and social media.
- Rates of newsprint ink and other material have gone up in international market; however, the Pakistani newspaper industry is particularly affected due to heavy devaluation of Pak Rupee.
• If the employees are affected by increase in the cost of electricity, gas and petrol, the cost of production of newspaper is also increased.

• Due to high cost of material and production, plus decrease in revenue, “Jang” group has been compelled to reduce pages of Daily “Jang” from 16 to 12 and of “The News” from 24 to 20 in October 2018 just to survive.

115. During his cross examination, the witness admitted that, due to increase in price of Dollar, the financial condition of employees has become worse; that, Daily “Jang” is available on internet as well but the rates of advertisement through internet vary from time to time. He added that the rates of advertisement through internet are very low. In answer to a question he replied that, after decreasing pages of a newspaper, loss of the employers has decreased to some extent, but it does not increase the income. He, however, admitted that after announcement of the 8th W.B Award lot of employees would have to be dismissed from service due to financial crunch. He added that share of print media advertising has been decreasing day by day.

• Despite an increase in population, there is decline in number of print publications by the margin of 47%.

• Due to multiple reasons, the readership of newspapers has decreased significantly, and that margin of profit has further fallen due to the increase of trade discounts of hawkers from 33% to 40%.

117. During her cross examination, the witness gave detail of outstanding receivables but she admitted that neither she was attached to the department of recovery nor did she oversee the Finance Department. • Print media has suffered a great deal due to non-payment of government advertisements on the part of Federal Government and Sindh Government.

119. During his cross examination, he has stated that ABC certified circulation of his regional B newspaper is 21,000. He added that his entire staff comprising 4/5 members do not get any salary, because all of them are family members, therefore, no question of enforcement of Wage Board Award arises. He claimed that regional newspapers are given step motherly treatment.

120. Muhammad Younas Wahab, Chief Editor of Daily “Halchal” Hyderabad, appeared as OW-12, and produced his affidavit as EX-OW12/A along with a copy of NIC EX-OW12/B. Main crux of his statement is that, keeping in view the short falls, media, and specifically the print media, is not able to Award the 8th Wage Board and therefore, according to him, market should decide the matter of employees’ wages with mutual consent.
121. During his cross examination, the witness stated that circulation of his newspaper was 38,000. He added that government was not issuing advertisements to local newspapers of Sindh. He further added that for the last three years Sindh Government had not paid any amount on account of advertisements. 221. During his cross examination he stated that Special Grade of newspaper employees is akin / equivalent to 19-Scale of the government but he wasn’t aware of any similar comparison drawn by any previous Wage Board. He denied the suggestion that aforesaid comparison is based upon his supposition. He has voluntarily stated that in his affidavit he has made it clear that according to 7th Wage Award Pay Scale of Special Grade was equivalent to 19-Scale of Government. However, he has admitted that according to last Wage Board Award there are 9-Grades of Newspaper Employees and each Grade has ten intervals. According to the witness, he has only prayed for fixing of employees’ salary according to Government Scales and he has not prayed for fixing 22 Grades of Employees. Further, according to him, he is fully aware of economic conditions of newspaper industry. He further added, on his own, that having long association of 24 years with Jang group he does not consider that the financial condition of the said group is bad. He admitted that rate of advertisement given by him in his affidavit does not mention rate of advertisement according to centimeters. He has voluntarily stated that even under the prevailing circumstances lot of advertisements cannot be published in the newspapers due to scarcity of space scarcity, and that it is not only Sunday Edition which carries advertisements but the same are published in other days of week as well. According to the witness, his statement/affidavit is based upon the record procured by himself. In answer to a question he replied that, per his affidavit, salary of Special Grade in year 1990/1991 was equal to that of 19-Scale of Government.

222. EW-72 Muhammad Saeed Khan, Terminal Operator “Daily Jang” Rawalpindi, produced his affidavit EX-EW72/A wherein he,
stated that despite his long service of 38 years and achieving Special Grade his monthly salary including PAP and other allowances comes to Rs.35,000/- which is extremely low.

223. Rest of the statement is almost repetition of that of EW-71, therefore, there is no need to repeat.

224. During his cross examination he showed his ignorance about the ratio of increase of inflation. In answer to another question he stated that his demand of increase of salaries with ratio of 425% is based on interim award of this Board. He stated that interim relief was enhanced with ratio of 325% but during this period there was additional price hike, therefore, demand of 425% increase in the salaries has been made.

225. EW-73 Khalid Mehmood Su-Editor, “Daily Jang” Rawalpindi, produced his affidavit EX-EW73/A wherein he, stated that despite his long service of 30 years and achieving last stage of Special Grade his monthly salary including PAP and other allowances comes to Rs.36,000/- which is extremely low.

226. Rest of the statement is almost repetition of that of EW-71 and EW-72, therefore, there is no need to be repeated.

227. During his cross examination he denied the suggestion that financial condition and circumstances of newspaper industry have become worse, however, according to him there is slight financial decline in the industry; he denied the suggestion that removal of 850 employees by the administration was due to worsening financial conditions of the newspaper; he voluntarily stated that the aforesaid ousted employees were not regular employees
rather they were outsourced employees; he admitted that the number of sweepers working in “Jang” Rawalpindi has been reduced to two from four.

228. EW-74 Syed Qalb-e-Ali, Senior Reporter, “Daily Dawn” Islamabad, produced his affidavit EX-EW74/A wherein he, stated that—

- Instead of increasing, his salary has been reduced significantly by the management since February, 2019.
- Incidentally, the plea currently advanced by managements of almost all media outlets to the effect that declining advertising revenues and increase in operational costs do not allow any raise in salary packages, was also the main argument at the time of 7th Wage Award.
- It was in the same period (2000 to 2005) that almost all media houses made heavy investments to launch their electronic news/entertainment (or both) channels.
- Another plea taken by the employers is that media industry is a drowning ship. This used to be the statement in early two thousands as well, but yet again the highly educated and foreign qualified third generation of media outlets owners has joined this industry instead of creating a space for themselves in corporate sector or any other business.
- Employees’ salaries should match the increase made by the government for its employees over the period 2005-2019.
- After reduction in pay since February 2019, it has become very difficult for him to maintain a decent living.
• His basic pay is Rs. 12,600/- which is shamefully low when compared to other industries and Financial or Provincial Government Departments.

229. During his cross examination, he stated that just after announcement of 7th Wage Board Award the print media owners started demanding for permission to run cross media for establishing electronic channels. The witness added that said demand showed that they were financially very stable and that is why they were ready to make such a huge investment. He admitted that due to the incident of 9/11 financial condition prevailing in the country improved significantly. The witness added that despite improvement, the print media owners delayed the implementation of 7th W.B Award by obtaining stay orders from the courts. In answer to another question, he stated that the newspaper owners are making false pretext for not increasing the salaries. He added that during last two years publication of some newspapers and monthlies was stopped voluntarily as is done after constitution of each Wage Board. He admitted that “Jang” Group did not stop any of its publications during period of 1947 to 2018. He further stated that the publications of “Jang” Group have been stopped intentionally.

230. EW-75, Malik Tahir, Copy Pester, “The News” Rawalpindi, produced his affidavit EX-EW75/A, contents whereof are almost repetition of statements of EW-71 and EW-72, therefore, same is not reproduced here.

231. During his cross examination he denied the suggestion that statement is ditto copy of Khalid Mehmood EW-73. In answer to another question he admitted that various newspaper establishments
removed their employees due to recent financial crunch. He denied the suggestion that now a days no advertisement is published on front or back page of “The News”. He voluntarily stated that even yesterday an advertisement was published on front page of said newspaper.

232. Dr. Tanveer A. Tahir, Executive Director Head Quarter APNS Karachi, (Owners’ Witness) appeared as OW-25. He gave details of billions of rupees of outstanding amounts owed by Federal and Provincial governments to all the newspapers. He stated that:

- Out of outstanding amount of Rs.240,27,42,494/- owed by Federal Government, an amount of Rs.278,289,671/- has been paid to the newspaper establishments.
- Out of receivable amounts PID has verified an amount of Rs.915,557,935/- as outstanding, whereas, an amount of Rs.1,133,516,768/- has been declared as disputed one and that despite repeated demands of APNS etc. and direction of Hon’ble Chief Justice of Pakistan only aforesaid amount has been released to newspaper establishments.
- Apart from aforesaid dues, an amount of Rs.1,608,896,928/- is outstanding from Provincial Governments as well.

233. During cross examination, he stated that out of outstanding amounts the share of APNS newspapers is 90% whereas that of non-APNS is 10%. He admitted that the newspapers also get advertisements from Provincial Governments directly, in fact most of the time Provincial Governments issue advertisements directly and the payment is also made directly. In answer to my question the
witness replied that he does not possess any document in order to support his version.

234. Khushnood Ali Khan, Publisher of “Sahafat”, “Dopehar” and Economic Times, appeared as OW-26 and has stated that—

- NECOSA, 1973 is an unjust law which was enforced by late Zulifqar Ali Bhutto for arm twisting of owners of newspapers.
- Perhaps in Pakistan there is no profession or industry where such law is applicable.
- In market the employers can hire very good employees at lesser wages than the ones fixed by W.B.
- Since the tenure of caretaker government price of a Dollar has increased by margin of 60 rupees.
- The expenditure of newspaper establishments has skyrocketed
- Cost of publishing of one copy of newspaper ranges between 45 to 50 rupees and therefore there is loss of 35 to 40 rupees per copy of newspaper.
- Future indicators of economy of the country are not positive, and, therefore, under the prevailing circumstances there is possibility of closure of publication of newspapers.
- He apprehends that 8th Wage Board will convert the newspaper industry into a sick one and that the owners will have to say good bye to the employees with tears.
- Advertisement amounts running in billions are outstanding from the governments.

235. During his cross examination, he admitted that he had been working as an employee in establishment of “Jang” and “Nawa-i-Waqt” respectively, but he does not remember as to when he started
job as publisher. He further stated that at no point of time he got benefit of W.B Award and that if the quantity and rate of the advertisement is increased by the governments then question of increase in employees’ salaries can be considered. The witness admitted that he is member of executive committee of APNS. He further admitted that the law of NECOSA, 1973 has already been declared a valid law by Hon’ble Sindh High Court. He stated that he was not aware of total number of employees working in all the newspapers owned by him and similarly he does not remember as to how many of his employees are being paid salary according to the Wage Board Award; that government does not release advertisement to newspapers for payment of salary to their employees rather publishing of advertisements against consideration is indeed right of the newspapers. He has, however, admitted that like newspaper establishments the increase of price hike had also adversely affected the employees. It has been further admitted by him that despite suffering losses he is continuously publishing his newspapers. In answer to another question he showed his ignorance about release of advertisements by Punjab Government to his newspaper namely “Sahafat” against an amount of Rs.98,812,338/- during last five years. He has, however, admitted that during last five years the face price of newspaper has increased. He showed his ignorance about number of circulation of Daily “Sahafat” after stating that none of the owners of newspaper would give statement about its ABC circulation. He could not refute the suggestion that during last 10 years Daily “Sahafat” has been awarded advertisements to the tune of Rs.161,525,312. He could not contradict the suggestion that total number of circulation of all his newspaper is 50,000/-. He was
confronted with the question that despite suffering loss of two hundred thousand rupees daily on publishing 50,000 copies of his newspaper why was he continuing his business, the witness replied that it was his personal affair.

236. Mohsin Bilal Khan, Group Editor, “Daily Ausaf” Islamabad, appeared as OW-27 and stated that—

- Existence of print media is under threat due to the decrease of income against advertisements.
- Due to delay in payment of dues the owners will be compelled to sack their employees let alone the increase of their salaries.

237. During his cross examination, he stated that besides 50 part timers there are 50 or 60 regular/full time employees of his newspaper; that “Ausaf” newspaper is being published from five cities of Pakistan; that during last five years there is five rupees increase in face price of newspaper and that in the same period, due to increase of Dollar price, there is 65% increase in the price of printing paper etc. He, however, categorically admitted that the increase in the Dollar price has not only affected the employees but every citizen of Pakistan. He further admitted that during last five years his newspaper received advertisements to the tune of Rs.212,920,016/- from Government of Punjab but he added that the said income comes to the tune of 33 lacs per month. He could not refute the suggestion that during last 10 years his newspaper was released advertisements by the Federal Government to the tune of Rs.415,745,811/-. In answer to another question he could not give wage structure of part timers.
238. Syed Ijaz Badsha, Chief Editor, “Daily Mashraq” Peshawar, appeared as OW-28 and produced his affidavit EX-OW28/A whereby, he raised following points:

i. Print industry in Pakistan is under immense pressure due to multiple reasons and in KPK situation is much worse because of the local business and industry drought during last two decades of terrorism and fight against it, a fact which is evident from the closure of many publications.

ii. Print industry is facing losses every year due to decline in advertising revenues coupled with the skyrocketing expenses in shape of production expenses.

iii. Total share of advertising revenue of print media is shrinking since the emergence of electronic, digital and social media.

iv. Devaluation of rupee has also hit print industry overall in manifolds.

v. Many newspapers have been closed down and a number of employees have lost their jobs.

239. During his cross examination, he has stated that according to ABC certificate, circulation of his newspaper is 1,25,000/-; that number of employees working in both of his newspapers ranges between 150 to 200 and that monthly salary of Daily “Mashriq” comes to the tune of 3 to 4 million rupees. He could not deny the suggestion that during last 10 years Daily “Mashriq” was paid an amount of Rs.442,055,963/- against advertisement revenue. He stated that it might be correct that during last five years Provincial Government paid an amount of Rs.418,286,281/- to Daily “Mashriq”
as advertisement revenue. He admitted that like employers, the employees were also affected due to price hike.

240. OW-29 Syed Haroon Shah, Publisher Editor, “Daily Wahdat”, produced his affidavit as EX-OW29/A wherein, he stated as under—

- “Daily Wahdat” is only Pashto Newspaper that is being published from Peshawar.
- In view of Impending financial crises in the whole world the publication of newspapers is being closed down gradually in Pakistan as well.
- On the one hand the expenditures on publication of newspaper are being increased and on the other their income squeezing.
- Devaluation of Pak rupee and emergence of electronic and social media have also adversely affected financial condition of newspaper establishments.
- In KP the owners of newspapers etc are suffering worse than those of other parts of the country.

241. During his cross examination, he stated that his employees are paid salary according to the Wage Board Award, however, some of them are paid less than that fixed by Wage Board Award and that including his brother and some of his relatives there are 22 employees working in his establishment. He did not deny the suggestion that during last five years his newspaper received an amount of Rs. 42,924,110/- as advertisement revenues paid by Provincial Government.
Gist of evidence of the witnesses produced by both sides during meetings at Peshawar is given as under:

242. Fida Muhammad Khan Khattak, President Khyber Union of Journalists and Resident Editor of “Nai Baat” Peshawar, Employees’ Witness (EW-76) produced his affidavit EX-EW76/A, wherein he deposed that—

- Per his observations made, during last 25 years the financial condition of the newspaper employees especially those working in Provincial Headquarter of KPK, has become worse and their salaries are very low, in fact some of the establishments are paying salaries below those fixed by Government as Minimum Wages.
- Non-payment of the salaries to the employees has become another monstrous and horrible problem.
- During last 20 years Peshawar has been a conflict zone and journalists have suffered due to terrorism like other citizens.
- Peshawar Press Club is the only Press Club where a suicide attack occurred in 2009.
- Journalists working in conflict zone are paid extra allowances besides provision of safety tools to them but it is vice versa in Peshawar.

243. During cross examination he stated that Headquarter of Daily “Nai Baat” is situated in Lahore. He showed his ignorance about the category of said newspaper.

244. EW-77, Muhammad Naeem, General Secretary Khyber Union of Journalists Peshawar, produced his affidavit EX-EW77/A.
Crux of his affidavit is that due to increase of price hike and inflation the problems of newspaper employees are multiplying day by day and their salaries are not increased according to the ratio of increase of price hike and inflation.

No significant question was put to him during cross examination.

245. EW-78 Nasir Hussain, Editor Daily “Awaz-e-Subha Peshawar, produced his affidavit EX-EW78/A contents whereof are almost similar to those of affidavit and additional statement of EW-76. Therefore, there is no need of repetition.

246. During his cross examination he admitted that like newspaper employees the media industry is drowning but he hastened to deny the said suggestion by stating that the media owners are not like a drowning boat. He added that revenue of newspaper advertisements has been increasing by leaps and bounds and that salaries of newspaper employees can be paid with the revenue of Sunday Editions of Local and National Newspapers only. He denied the suggestion that the revenue of private advertisements has been affected by on the down fall of country’s economy.

247. EW-79 Ibrahim Khan, Member Executive Council PFUJ Peshawar, produced his affidavit EX-EW79/A wherein, he stated that—

• Newspaper employees, especially those working in Peshawar, have been facing terrible circumstances.
• Their salaries are very low; in fact some of the establishments are paying salaries that are lower than those fixed by Government as Minimum Wages.

• Non-payment of the salaries to the employees has become another monstrous and horrible problem.

• In Peshawar only 2 or 3 newspaper establishments enforce Wage Award and that newspaper employees have been suffering terrible circumstances due to payment of very low amount of salaries.

• At the end he prayed that contractual employees be given the same benefit of 8th Wage Award as regular employees.

248. During his cross examination, he stated that it was in his knowledge that law of NECOSA covers contract based employees as well. He voluntarily added that most of Peshawar’s Newspapers do not pay salaries to the contract employees according to the Wage Award. He further added that salaries paid to the employees of bigger establishments are nothing but a mockery of Wage Award. Even some of the bigger establishments like Dailies “Aaj”, “Mashraq” and “Express” Peshawar haven’t set a tradition of salary increments, even though assets of said establishments are on the up; that in 2000 he was deprived of Wage Award after branding him as part timer; that due to excess of availability of advertisements reporters are told that the news sent by them could not be accommodated due to scarcity of space; that for obtaining advertisements local newspapers claim themselves to be National Newspapers but while granting facilities to the employees they brand themselves to be metropolitan B newspapers, and that some newspaper establishments pay less than Rs.15000/-in salaries to employees.
249. Since the question against constitution of the present Wage Board surfaced on the scene I would venture to dilate upon the same irrespective of the fact that the said objection was not pressed by the employers’ side anymore due to compromise between the parties regarding final decision of the 8th Wage Board. The major thrust of arguments raised by Mr. Ali Almani Advocate Supreme Court assisted by Mr. Ahad Aziz Zuberi Advocate High Court against the jurisdiction of this Board was that after promulgation of Sindh Terms of Employment (Standing Order) Act, 2015, the Industrial & Commercial Employment (Standing Orders) Ordinance (No.VI) 1968 to the extent of the Sindh stood repealed. Undeniably, the 8th Wage Board was constituted for the first time on 06.09.2013 whereas Sindh Terms of Employment (Standing Order) Act, 2015 was promulgated on 25.04.2016 meaning thereby that at the time of constitution of the 8th Wage Board for the first time the said enactment had not come into existence thus, the matter relating to determination of terms and conditions of the newspapers employees was to be dealt with under the existing law viz the Act. Further, since present Wage Board was constituted in continuation of the 8th Wage Board previously constituted, the promulgation of Sindh Terms of Employment (Standing Order) Act, 2015 had no bearing on its jurisdiction as the proceedings for announcement of 8th Wage Board were already under process. It is well entrenched by now that any amendment in law would have no affect on the pending proceedings until and unless it has been clarified by the legislature.
250. Considering from another angle, if it is presumed for academic discussion that after 18th amendment the provisions of the Industrial & Commercial Employment (Standing Orders) Ordinance (No.VI) 1968 are not applicable in provinces, even then the objection against the jurisdiction of the Federal Government to constitute 8th Wage Board in terms of Section 9 of the Act cannot be given any weightage given that, until there is formal legislation by the Provincial Government on the subject relating to terms and conditions of the newspaper employees, the Federal law would continue in terms of Article 270-AA (5) of the Constitution.

251. As far as plea regarding bar against the jurisdiction of the Federal Government to constitute a Wage Board after abolition of concurrent list is concerned, suffice it to note there is no cavil with the proposition that after 18th amendment the subject of labour has fallen to the Provincial Government. However, it does not mean that the legislation already done by the Federal Government on the subject has become redundant ipso facto, especially when it was made clear in the 18th amendment that until there is formal legislation by the respective provinces, legislation done by the Federation on the subject would continue to cover the matters arising out of such subject.

252. Though after 18th amendment the items falling at serial No.26 and 35 of the concurrent legislative list prior to the 18th amendment have been deleted, it only means that in future the legislation on the subject would be within the domain of the Provincial Government concerned. However, by no stretch of imagination can it be presumed that deletion of said items from the current legislative list means that the legislation already undertaken
by the Federal Government on the said subject has become redundant and will deprive the Federal Government from the authority to constitute Wage Board in terms of Section 9(1) of the Newspaper Employees (Conditions of Service) Act, 1973, especially when the Sindh Government has not amended or repealed the said Act.

253. There is no denying the fact that there are two legislative pieces regarding labour where one has been passed by the Federal Government and other by the Provincial Government. In such situation Article 143 of the Constitution of the Islamic Republic of Pakistan comes into play, according to which, when any Provincial legislation offends an Act of the Parliament, the latter would prevail. Insofar as matter in hand is concerned, admittedly the Sindh Government has not enacted any law relating to the terms and conditions of the Newspaper Employees, thus the operation of the Act cannot be ousted from the Province of Sindh merely on the ground that the Provincial Government has enacted Sindh Terms of Employment (Standing Order) Act, 2015.

254. Now, coming to the case-law referred in support of the objection against jurisdiction of the Federal Government to constitute the 8th Wage Board. With all humility and respect at my command for the superior judiciary, I am of the view that the same is inapplicable, inasmuch as in the case of Salim Javed Baig and others vs Federal Ombudsman (PLD 2016 Lahore 433) the Hon'ble Lahore High Court held that after promulgation of the Punjab Protection Against Harassment of Women at the Workplace (Amendment) Act, 2012, the Federal Ombudsman had no jurisdiction to entertain any matter
falling within the domain of the Province of Punjab, especially when the parties were also residing there, whereas none of the Provincial Governments has legislated at their own level determining the terms and conditions of the Newspaper Employees. Similarly, in the case of Shaheed Zulfiqar Ali Bhutto Institute of Science and Technology v. Federal Government (PLD 2018 Sindh 581), a learned Division Bench of the Sindh High Court held that, when a subject is covered under any provincial legislation, and the parties also reside within the provincial limits, the provincial authorities have jurisdiction instead of the Federal Authorities. Likewise, in the case of Shafiquddin Moinee v. Federation of Pakistan (2018 CLD 1088), a learned Division Bench of the Sindh High Court, while dealing with the applicability of Companies Profit (Workers' Participation) Act, 1968, after promulgation of Sindh Companies Profit (Workers' Participation) Act, 2015, held that since the latter was confined to the Province of Sindh and it had nothing to do with the profits earned by a trans-provincial establishment, the same is irrelevant. As far as the case of Syed Imran Ali Shah v. Government of Pakistan (2013 PLC 143) is concerned, suffice it to note that the findings of the Hon'ble Lahore High Court, Lahore, regarding exclusion of the jurisdiction of the Federal Government towards implementation of the international treaties, was revisited by a learned Division Bench of Lahore High Court, Lahore in the case reported as P.T.V Employees Itchad Union, Punjab through Secretary v. Federation of Pakistan and six others (2018 PLC 136) by *inter alia* observing as follows:

"29. The learned counsel for the Appellant/Petitioner has attempted to argue that there is no obligation on the Federal Government to implement the conventions and the matter
can be placed before the competent authorities of the provinces who may implement the same.

30. We are unable to subscribe to this view. In case such course of action was to be adopted, it could lead to anomalies, different and varied levels and methodologies of enforcement which would cause irreconcilable and contradictory situations. The possibility of different provinces interpreting different provisions of the Conventions differently cannot be ruled out. In view of the fact that the Federation being a "Member" has ratified the conventions, the Federation is principally and primarily obligated to implement provisions of the same and decide on the mechanism and methodology through which such implementation and enforcement can take place. Further, considering that implementation of treaties and agreements falls within the exclusive domain of the Federation in terms of Entry Nos. 3 and 32 ibid, in the interest of uniform implementation and enforcement of the treaties and conventions, it was just, proper and constitutionally permissible for the Federation to enact legislation especially so in areas which fall within the sphere of its jurisdiction i.e. Islamabad Capital Territory and for matters involving establishments which have presence in more than one provinces. Such matter needed to be dealt with in accordance with a uniform set of regulations, as opposed to different sets of regulations, enacted by Federating Units in accordance with their own interpretation of the meaning, scope, import and desirability of enforcement of
international conventions. More importantly, these matters clearly relate to the Federation and squarely fall within the scope of entries Nos.58 and 59 ibid. Therefore, in our opinion enactment of IRA, 2012 can amply be justified on the basis of the aforesaid entries in the Part-I of the Federal Legislative List. Further, admittedly provincial legislatures lack the power to enact legislation involving trans-provincial establishments, because their powers extend only to the territorial limits of the respective provinces. Hence, the need for federal legislation which would be enforceable throughout the federation bringing within its ambit, all trans-provincial establishments”.

255. Similar view was taken by a learned Division Bench of the Sindh High Court headed by Mr. Justice Gulzar Ahmed, in the case of Industrial Relations Advisors Association through General Secretary v. Federation of Pakistan through Secretary, Ministry of Labour and Manpower, Islamabad and others (2010 PLC 359).

256. The aforesaid judgments passed by the learned Division Bench of the Lahore High Court as well as by the learned Division Bench of the Sindh High Court were upheld by the Hon’ble Supreme Court of Pakistan in the judgment reported as Messrs Sui Gas Company Limited and others v. Federation of Pakistan (2018 SCMR 802) by inter alia observing as follows:-

“16. Having decided the question regarding the legislative competence of the Provincial legislature, now we shall consider the question whether the IRA 2012 is a valid piece of legislation or not, and whether by promulgating the said...
Act, the Federal Legislature has gone beyond its legislative competence and encroached upon the authority of the Provincial Legislature. In this regard it is to be noted that although through the Eighteenth Amendment the CLL (Entries Nos.26 and 27 whereof covered the subjects, inter alia, of labour disputes and trade unions) was abolished from the Constitution, however, a new Entry No.32 in Part-I of the FLL was introduced which covered the subjects of "International treaties, conventions and agreements and International arbitration". Previously, somewhat similar subjects were available in Entry No.3 of Part-I of the FLL, i.e. "External affairs; the implementing of treaties and agreements, including educational and cultural pacts and agreements, with other countries; extradition, including the surrender of criminals and accused persons to Governments outside Pakistan". It has been argued by the learned counsel for the appellants that if the interpretation of Entry No.3 of Part-I of FLL as made by the learned High Courts is presumed to be correct, then the Federal legislature could enlarge its legislative powers and legislate on any subject it chooses simply because the Executive has signed a treaty in relation to that topic; this would negate the basic concept of division of powers on which our constitutional structure has been erected. In this regard it is to be noted that the Parliament through Eighteenth constitutional amendment, though abolished the CLL which contained the subjects of labour practices and trade unions (Entries Nos.26 and 27 of the CLL), but with conscious
application of mind, through insertion of the new Entry No.32 ibid in the FLL, brought within the legislative competence of the Federal Legislature the matters relating to the international treaties, conventions, etc.; obviously, while doing so, it (Parliament) was conscious of the fact that the matters relating to trade unions and labour disputes, etc., have been dealt with and protected under the International Labour Organization’s Conventions No.87 (Convention concerning Freedom of Association and Protection of the Right to Organise) and 98 (Convention concerning the Application of the Principles of the Right to Organise and to Bargain Collectively) which are covered under Entries Nos.3 and 32 of Part-I of the FLL. Thus, the Federal Legislature has legislative competence to legislate in this regard to discharge the obligations created under the International Treaties and Conventions. Therefore, the IRA 2012 has been validly enacted by the Parliament”.

“17. Additionally, Entries Nos.58 and 59, which fall at the end of the Part-I of the FLL, have their own significance. These two entries are independent and unfettered. Entry No.58 ibid covers the “Matters which under the Constitution are within the legislative competence of Majlis-e-Shoora (Parliament) or relate to the Federation”. Further, Entry No.59 deals with the “Matters incidental or ancillary to any matter enumerated in this Part”. From the plain reading of these two Entries, it is clear that besides the subjects enumerated in the previous Entries, these Entries provide extended powers to the Federal Legislature; inasmuch as,
by means of these Entries, the legislative competence of the Federal Legislature extends not only to the matters which under the Constitution are within the legislative competence of the Parliament but also to the matters which relate to the Federation and also the matters incidental or ancillary thereto. Thus, in addition to the matters specifically enumerated in any of the Entries in Part-I of the FLL, the matters which in some way relate to the Federation would also fall within the legislative competence of the Parliament. This interpretation also finds support from the fact that in terms of Article 141 of the Constitution, a Provincial Legislature does not possess extra-territorial legislative competence and therefore, cannot legislate with regard to a subject which in its application has to transcend the provincial boundaries. It is to be noted that as clarified by the learned High Court the resort to Entry No.58 ibid could only be made to deal with an extra-ordinary situation i.e. when a matter may fall within the legislative competence of the Province but when it comes to its application it has to travel beyond the territorial boundaries of the Province, bringing it into the domain of the Federal Legislation. Thus, it is held that the federal legislature has the competence to legislate relating to the Establishments/Trade Unions functioning at the Federal as well as trans-provincial level.

"18. There is yet another Entry in Part-II of the FLL which provides the legislative authority to the Federal Legislation, namely, entry No. 13 which covers "Inter-provincial matters and co-ordination". This Entry also has two parts, firstly,
the inter-provincial matters and secondly, inter-provincial co-ordination. It is clear that under the command of this Entry too, the Federation has competence to enact laws relating to the inter-provincial matters/Trade Unions. Further, Entry No.18 thereof covers the "Matters incidental or ancillary to any matter enumerated in this Part". This Entry further enlarges the scope of the above Entry. Thus, it is held that even on the basis of Entries Nos.13 and 18 ibid, the IRA 2012 is a valid piece of legislation.

257. Admittedly most of the newspapers have nationwide circulation thus, they fall within the definition of trans-provincial establishments. Further, indubitably the Provincial Governments have no jurisdiction to legislate qua the trans-provincial matters and in case the Provincial Governments are allowed to determine the wages of the newspaper at provincial level, perhaps there would be disparity in respect of wages of the similarly placed newspaper employees of an Establishment working in different provinces.

258. Indisputably, the newspaper employees have their Central Bargaining Agents (CBA) and, in case they were split according to provincial limits, perhaps the very purpose of forming a CBA would become redundant. While dealing with the anomalous situation regarding jurisdiction of the provincial governments to legislate about the terms and conditions of the CBA relating to trans-provincial establishment, the Hon'ble Supreme Court in the case of Messrs Sui Gas Company Limited and others (supra) held that the said function only falls within the domain of the Federal Government.
259. At some point in time, Provincial Wage Boards for
determination of the terms and conditions of the Newspaper Employees
were constituted, however, on the demand of the respective
stakeholders the same was made a subject which ultimately resulted
into promulgation of the Act. The said fact also finds supports from the
findings of the 2nd Wage Board contained in paragraphs No.21 and 22,
out of which the relevant portion is reproduced as under:-

"The working journalists as well as the proprietors were
anxious that the affairs of the working journalists should be
taken over by the Central Government so that the conditions
of their service should be uniform in all the four provinces.
The National Assembly of Pakistan consequently passed the
Newspaper Employees (Conditions of Service) Act No. LVIII of
1973 which received the assent of the President on the 11th
of August 1973 and was published in the Gazette
Extraordinary of Pakistan dated 13.08.1973 and was
published in the Federal Government to constitute a Wage
Board for fixing rates of wages in respect of not only
journalists working in the Newspaper Industry but also all
other employees in the industry. A Wage Board under this
Act was constituted by the Federal Government by a
notification dated 11.09.1973".
260. The hollowness of the objection is evident from the fact that the 8th Wage Board was constituted thrice even after 18th amendment, but none of the parties objected to its jurisdiction despite the fact that the proceedings conducted by 8th Wage Board headed by Mr. Shahid Mehmood Khokhar, Advocate, were attended by all the members representing the employers and the employees. Further, inaction on the part of the newspaper establishments towards challenging the *vires* of the act before any forum, despite the fact that 18th amendment was passed way back in the year 2010, affirms that the present Wage Board was validly constituted under the Act. Moreover, acceptance of interim relief granted by the present Board to the employees without any objection on the part of the employers against constitution of the Board by the Federal Government also stands proof of the fact that it has validly been constituted while exercising powers under Section 9 of the Act. As a necessary corollary to the discussion made in the foregoing paragraphs, I found no substance in the objection against jurisdiction of the Federal Government to constitute Wage Board Award in terms of Section 9 of the Act. Resultantly, the same is hereby spurned.

**AGREEMENT BETWEEN THE PARTIES**

261. For resolving the contentious issues with unanimity a meeting of the Sub-committee of the Board, headed by the undersigned, was held at Lahore on 20th December, 2019 wherein the parties, after prolonged deliberations and sincere efforts arrived at a consensus. Paragraph No.3 of the minutes of the meeting of said Sub-committee are reproduced as under:

*"After a marathon discussion on the issue of Final Award for Newspaper Employees among all the members of the Sub-
committee of the Board, a consensus regarding all the terms for issuance of Final Award was developed between the parties. Consequently, it was decided that the learned Chairman will draft the Final Award according to the terms settled between the parties, whereafter, the said draft will be signed by the members representing the employers by circulation. Thereafter, the Final Award will be signed by the learned members representing the employees and the learned Chairman on 24th December, 2019 at PID Office, Islamabad before its formal announcement*.

262. In the light of said decisions the undersigned prepared a draft agreement which was sent to both the parties respectively through emails, whereafter, certain minor issues cropped up between the parties. However, after constant communication through emails, WhatsApp messages and telephonic conversation the said issues including preparation of all the relevant schedules were also resolved between the parties. Final draft of the agreement was communicated to both the parties. Similarly, the schedules No. II to VII prepared by the employers' side were finalized after getting input of the members representing the employees. After getting the agreement signed by all the members representing the employers by circulation, Mr. M. Khurshid Aizid, Head of Human Resources, Dawn Group of Newspapers, handed over the same to the undersigned at PID Office, Islamabad today at 04:00 p.m whereafter, all the members representing the employees signed the said document/agreement in my presence. The contents of the said duly signed agreement are reproduced as under:-
OFFICE OF THE CHAIRMAN

8th WAGE BOARD
GOVERNMENT OF PAKISTAN

AGREEMENT OF THE PARTIES ON THE ISSUE OF FINAL
DECISION OF THE BOARD

1. One of the salient features of the proceedings conducted by the present Wage Board is that on the one hand both sides contested the matter tooth and nail and on the other they continued their efforts for resolution of the matter through negotiations. The efforts for announcement of interim relief through consensus also materialized due to sincere efforts made by us i.e. the members representing both sides which resulted into announcement of interim relief with consent. To keep the said momentum on, both sides, while actively participating in the proceedings of the Board kept on negotiating to arrive at a consensus.

2. After recording evidence of the parties and hearing arguments in support of their respective stances, a Sub-committee comprising two of us namely Messrs Asif Aziz Zuberi and Nasir Chishti was constituted to arrive at a compromise regarding final decision. The said Sub-committee held successive meetings on different dates to resolve the matter with consensus but initially could not make any head-way, however, they continued their efforts to do the needful.
3. Ultimately, they arrived at a compromise to the extent of wage scale of employees falling within the category of Grade-V to VIII, with the condition that the said compromise would be subject to the consensus of the parties on the rest of the points, as was reported by them in the meeting of the Board held on 16th December, 2019 at Islamabad. As the margin of difference between the employees’ demand for increase of their wages and offer of the employers’ in that regard was wider, the matter could not be settled between the parties.

4. In the meanwhile, Dr. Lubna Shahnaz, learned Wage Advisor, submitted her report before the Board in the meeting held on 11th December, 2019 at Islamabad which was followed by the amended report submitted by the learned Wage Advisor in the meeting of the Board held on 16.12.2019 at Islamabad. With a view to facilitate the resolution of the matter with consent, the Sub-committee already constituted by the Board was expanded by adding the names of two of us namely Messrs Shahzada Zulfiqar and Sarmad Ali as members of the said committee.

5. According to the schedule the said Sub-committee, headed by the Chairman, held its meeting on 20th December, 2019, at RIO, PID Office, Lahore which was not attended by one of us namely Mr. Shahzada Zulfiqar, however, he remained in touch with his co-member Mr. Chishti telephonically. Latter, assured the other members of the Sub-committee that all the members of the Board
representing the employees as well as their unions will help the newspaper establishments by lobbying with the Federal as well as Provincial Governments for demanding the release of all arrears due to the members of APNS outstanding as of 1st February, 2019 and for increase of Government Advertisement rate proportionately. After a marathon discussion on the issue, the Sub-committee resolved all the contentious issues and after getting instructions from their co-members off and on gave their consent for decision of the 8th Wage Board with consensus. As a token to acknowledge the settlement arrived at by the Sub-committee we, the members of the 8th Wage Board, execute this agreement with the following terms and conditions:

(i) The nomenclature of all the known occupations or work in the newspaper industry, standardized and classified into ten grades as defined by the preceding Board shall remain in force.

(ii) The scheme of move over prevalent at the moment would continue but the intervals in the pay scales for each grade will be increased from existing 10 to 17. However, an employee who has been moved over to a higher grade before the date of this award, will remain in that grade and will not revert back to his earlier grade on account of the increase in intervals in the pay scale of his earlier grade.

be increased at the rate of 144%, 146%, 147% and 152% respectively.

(ix) The fringe benefits admissible allowances as prescribed in the 7th Wage Board will be increased at the rates set out in the attached table.

(x) The category Metropolitan-A will be confined to the newspapers being published from Metropolitan Centers and have the circulation of 30000 or more per day or annual gross revenue of Rs.250 million or more. Category Metropolitan-B will be changed accordingly.

(xi) Unless expressly provided otherwise in the main decision of 8th Wage Board rest of the terms and conditions as enshrined in the 7th Wage Board, will be part of the 8th Wage Board.

**RECOMMENDATIONS**

1. The Federal as well as the Provincial Governments, including autonomous bodies, semi-autonomous bodies, statutory organization/corporations, State owned companies, attached departments etc., would ensure that advertisements are only issued to the Newspaper Establishments that implement the decision of the Wage Board in full substance.

2. Before parting with this decision, I would like to share my harsh experience of conducting proceedings of this Board as its Chairman due to lack of requisite infrastructure, in particular competent and required number of staff. The task being time bound, I had to make the requisite arrangements at my own end and expense. However, with a view to sensitize the Government in this regard, I deem it appropriate to recommend that, in future, while constituting Wage Board in terms of Section 9 of the Act, in addition to ancillary facilities, competent and required number of staff members be placed at the disposal of the Board. The Government can either hire services of competent persons through fresh recruitment for specific period or it can depute from the surplus pool or can manage from the departments already dealing with the matters relating to newspapers and its
employees. The foremost consideration before the Government, while undertaking said process, should be the competency of the persons to be deployed with Board, as I suffered lot of problems due to insufficiency of the staff attached by the Government with me, which ultimately compelled me to utilize the services of the staff working in my private office at Lahore.

3. During proceedings of the Board, I have noticed a stark disparity amongst the regular newspaper employees and those working on contract basis. One of the glaring difference between two categories is the payment of bonus, inasmuch as the same is only admissible to the regular employees excluding the contract employees despite the fact that in the Government departments, to compensate the contract employees against the benefits admissible to the regular employees, they are paid 30% contract/ad-hoc allowance in addition to routine remuneration. In this scenario, it is recommended that the newspaper establishments should either give bonuses to the contract employees as well or compensate them by adding an extra allowance in their pay.

4. It has further come on the record that the newspaper establishments hire employees through outsourcing entities. To address the said issue, it is recommended that either the newspaper establishments be bound to hire staff directly or to pay the equal wages to the employees hired through outsource entities as admissible to the employees recruited by themselves.
5. During proceedings of the Board, it was revealed that due to constitution of one Implementation Tribunal for Newspaper Employees at Federal level, most of the employees feel handicapped in approaching said tribunal for implementation of the Wage Board Award in the event of its non-compliance by a newspaper establishments. I am cognizant of the fact that according to the practice, in-vogue, the Chairman Implementation Tribunal holds sittings beyond the Federal Capital on occasional basis. However, the same cannot be considered as substitute of regular functioning of said tribunal at Provincial Level. In this backdrop, it is recommended that U/s 12-A of the NECOSA, 1973, one or more members may also be appointed to redress the grievances of the employees in respect of non-implementation of the Wage Board Award by the newspaper establishments.

6. Further, during proceedings it came to limelight that the newspaper establishments show fake circulation with the collaboration of the concerned departments/people for getting advertisements. Releasing of advertisements to such dummy newspapers adversely affect the advertisement revenue of genuine newspapers that ultimately impedes their capacity to pay salaries to the newspaper employees. Hence, it is recommended that Federal as well as Provincial Governments should ensure the release of advertisements to genuine publications fairly, justly and in accordance with law.

7. It would be parsimonious attitude on my part to omit appreciation to the members of the Board representing both sides, staff attached with the undersigned by the Government and those working
in my private office at Lahore in particular Mr. Ali Raza, Stenographer. Further the legal assistance provided by Mr. Khawaja Muhammad Arif ASC, representing the employees, and Mr. Ali Almani ASC, representing the employers, who was ably assisted by his associate namely Mr. Ahad Aziz Zuberi, Advocate High Court, was also laudable.

8. I also offer deepest gratitude to Chaudhary Fawad Hussain, Former Minister for Information and Broadcasting, currently Minister for Science and Technology, Dr. Firdous Ashiq Awan, Special Assistant to the Prime Minister for Information and Broadcasting, Mr. Shafqat Jalil, Former Secretary for Information and Broadcasting, Miss Zahida Parveen, Secretary for Information and Broadcasting, Mr. Sohail Ali Khan, D.G for Information and Broadcasting, Mr. Danyal Gillani, Director to Minister, Hafiz Muhammad Rafique, D.S (B&A), Ateeq-ur-Rehman Khan, Deputy Director, (MOIB), Mr. Sikandar Ali Shah DGPR, RIO, PID, Karachi and Mr. Shah Nawaz, APS RIO, PID, Karachi, Syed Hamza Saleem Gilani, Deputy Director, Mr. Abdul Manan, Deputy Director, RIO, PID, Quetta, Mr. Asad Khan, Information Officer, Quetta, Ms. Hina Malik, Deputy Director, RIO, PID Faisalabad and Miss Uzma Afzal, Deputy Director, RIO, Multan for rendering full cooperation to the Wage Board during the entire proceedings. I am also thankful to Shahzada Zulifqar, President PFUJ, Mr. Afzal Butt, Ex-President PFUJ, Dr. Lubna Shahnaz, learned Wage Advisor, Khawaja Farrukh Saeed, Mr. Saeed Aasi and Mr. Ghulam Muhammad Hussain, Senior Journalists for giving their valuable advice and input during the proceedings. (Justice Hasnat Ahmad Khan)
Former Judge Lahore, High Court/
Chairman 8th Wage Board for Newspaper Employees of Pakistan
OFFICE OF THE CHAIRMAN
8th WAGE BOARD
GOVERNMENT OF PAKISTAN

AGREEMENT OF THE PARTIES ON THE ISSUE OF FINAL
DECISION OF THE BOARD

1. One of the salient features of the proceedings conducted by the present Wage Board is that on the one hand both sides contested the matter tooth and nail and on the other they continued their efforts for resolution of the matter through negotiations. The efforts for announcement of interim relief through consensus also materialized due to sincere efforts made by us i.e. the members representing both sides which resulted into announcement of interim relief with consent. To keep the said momentum on, both sides, while actively participating in the proceedings of the Board kept on negotiating to arrive at a consensus.

2. After recording evidence of the parties and hearing arguments in support of their respective stances, a Sub-committee comprising two of us namely Messrs Asif Aziz Zuberi and Nasir Chishti was constituted to arrive at a compromise regarding final decision. The said Sub-committee held successive meetings on different dates to resolve the matter with consensus but initially could not make any head-way, however, they continued their efforts to do the needful.
3. Ultimately, they arrived at a compromise to the extent of wage scale of employees falling within the category of Grade-V to VIII, with the condition that the said compromise would be subject to the consensus of the parties on the rest of the points, as was reported by them in the meeting of the Board held on 16th December, 2019 at Islamabad. As the margin of difference between the employees’ demand for increase of their wages and offer of the employers’ in that regard was wider, the matter could not be settled between the parties.

4. In the meanwhile, Dr. Lubna Shahnaz, learned Wage Advisor, submitted her report before the Board in the meeting held on 11th December, 2019 at Islamabad which was followed by the amended report submitted by the learned Wage Advisor in the meeting of the Board held on 16.12.2019 at Islamabad. With a view to facilitate the resolution of the matter with consent, the Sub-committee already constituted by the Board was expanded by adding the names of two of us namely Messrs Shahzada Zulfiqar and Sarmad Ali as members of the said committee.

5. According to the schedule the said Sub-committee, headed by the Chairman, held its meeting on 20th December, 2019, at RIO, PID Office, Lahore which was not attended by one of us namely Mr. Shahzada Zulfiqar, however, he remained in touch with his co-member Mr. Chishti telephonically. Latter, assured the other members of the
Sub-committee that all the members of the Board representing the employees as well as their unions will help the newspaper establishments by lobbying with the Federal as well as Provincial Governments for demanding the release of all arrears due to the members of APNS outstanding as of 1st February, 2019 and for increase of Government Advertisement rate proportionately. After a marathon discussion on the issue, the Sub-committee resolved all the contentious issues and after getting instructions from their co-members off and on gave their consent for decision of the 8th Wage Board with consensus. As a token to acknowledge the settlement arrived at by the Sub-committee we, the members of the 8th Wage Board, execute this agreement with the following terms and conditions:-

(i) The nomenclature of all the known occupations or work in the newspaper industry, standardized and classified into ten grades as defined by the preceding Board shall remain in force.
